The aim of this conference is to reposition the relationships between city and landscape, as reflected in the practice and academia of various disciplines. To this end, we seek to revisit the academic discourse concerning landscape urbanism, and to engage with subsequent 'isms' as well as looking beyond, in order to enrich and broaden the urban discourse.

- > Ecology as panacea?
- > The aesthetics as pejorative?
- > Contextual bias or enrichment from contexts?
- > Wildcard Session!
