

THE ARB SHOW

ARB EVOLUTIONS

CELEBRATING THE PAST, PRESENT AND FUTURE OF ARB

This year we're celebrating 60 years of the Arboricultural Association. To mark the anniversary, we're inviting exhibitors to contribute and sponsor a special area showcasing the advancements and changes in equipment and technology through the years.

From artifacts of arb to brand new innovations, we want brands to get involved and celebrate the evolution of the arb industry. Whether it's something older than the Association or a game-changing product that's in development.

Since the first edition ARB Show has always been the event to launch the tools, equipment and techniques that can revolutionise tree care, making it efficient and safer. As well as being as being the place to demonstrate how rapidly innovations can evolve.

The majority of these changes are led by, and impossible without the vision of forward thinking arborists. So as well as celebrating technical milestones this is a chance to highlight some of the people behind the scenes whose contributions have changed the way we work.

EQUIPMENT EXHIBITS

The Arb Evolutions Exhibit itself will be curated by the Association and hosted in a central area of the site, close to the ARB Show Open Climbing Competition.

If you have an idea for something to be featured in this special area, related to major advances in tools, equipment, products and techniques – simply fill out the form below and we'll get in touch.

If we get enough submissions, it will be organised by category and decades. Generally it'll be curated into past, present and future.

SPONSORSHIP

It takes a huge amount of work to host and organise the ARB Show each year. There are huge costs involved so it's always a risk, since the Arboricultural Association is a charity that often makes only small profits that are reinvested into efforts to inspire, promote and support arboriculture.

As this is a new, exhibit we are open to new ideas and different ways of providing support.
